ABBREVIATIONS AND EXPLANATIONS

PLAYERS INCLUDED IN BOOK - All players in organization as of February 28, 1984.

MOST-USED LINEUPS (START ON PAGE 2) - Players who played most games at each position for respective teams in 1983 pitchers who started most games for that team (St) and pitchers who appeared in most games as relievers (Rel) for that team.

POSITIONS PLAYED - Primary position for that player that season. A secondary position is listed only if player played that position in 10 or more games or half as many games as his primary position. Some players played 10 or more games at three or four positions, but only two most-played positions are listed.

MANAGERIAL/COACHING RECORDS - Tenures with other organizations are denoted by nickname of team in parentheses. Information under "Finish" refers to standing of club in league or in division (Div). When two numbers are listed, first number is finish in first half of split-season, second number is for second-half finish. "In playoffs" means team competed in post-season play. The results of post-season play are listed in games; "2G to 0" means two games to none in a best-of-three playoff. Double asterisks in manager's player record indicate he was player-manager that season; single asterisk indicates player-coach.
